AND RACING FIERCE BATTLE ON AT LILLE: KAISER LOSES TWO WARSHIPS

Destruction of Former North Ger-French Ambassador at London Deman Lloyd Liner, on Which Mayor Gaynor Was Shot, Officially Reported in the House of Commons - German Cruiser Magdeburg Blown Up to Avoid Capture.

LONDON, Aug. 27 [Associated Press].-Winston Spencer Churchill, First Lord of the Admiralty, announced in the House of Commons to-day the sinking of the Kaiser Wilhelm der Grosse. He said:

"The Admiralty has just received intelligence that the German armed merchant cruiser Kaiser Wilhelm der Grosse of 14,000 tons and armed with ten 4-inch guns has been sunk by the H. M. S. Highflyer off the west coast of Africa.

"This is the vessel which has been interfering with traffic between this country and the Cape, and is one of the very few German armed auxiliary cruisers that succeeded in getting to sea. The survivors were landed before the vessel sank. The Highflyer had one killed and five wounded."

The Admiralty to-night sent the following message to the Highflyer:

"Bravo! You have rendered service not only to Britain but to the peaceful commerce of the world! [The Kaiser Wilhelm der Grosse was one of the palatial steamers of the North German Lloyd Line. At the outbreak of the war she was converted into an armed cruiser, and since had been reported active in searching for British merchantmen. She had a tonnage of 14,349 and was built in 1897. She was 626 feet long. with a beam of 66 feet.

It was on this vessel that the late Mayor Gaynor of New York was shot as he was about to sail for Europe.

[The Kaiser Wilhelm der Grosse was one of the last of the big ships to leave New York just before European hostilities began. She sailed July 21, arriving at Bremen July 28, the day Austria declared war on Servia. The Kaiser Wilhelm cost between \$3,500,-000 and \$4,000,000. At the North German Lloyd offices this afternoon it was said the loss would be borne by the German Government.1

AMSTERDAM (via London), Aug. 27 [Associated Press].-An official despatch from Berlin says that the light German cruiser Magdeburg, while ashore on the Isle of Odensburg, in the Gulf of Finland, was fired upon by Russian ships.

A later announcement by the German Admiralty says that eighty-five members of the crew of the Magdeburg, including the captain, are missing.

The others of the crew were rescued by a torpedo boat while under fire. The Magdeburg was blown up.

the Germans had occupied Lille, Roubaix and Valenciennes.

The towns of Roubaix, Lille and Valenciennes are all close to the Belgian frontier, Lille and Valenciennes being ten miles from the line and Roubaix five. Roubaix is five miles northeast of Lille and Valenciennes is thirty miles southeast of the same city. Lille is the most important from a military point of view. It has a fortress of the first class, and the circle of its forts is thirty miles. Recent despatches from Paris said that Lille was held by French reservists. Roubaix would appear not to be fortified; it is a manu facturing centre. Valenciennes also is a manufacturing city, and an important military point. It has an arsenal and extensive ber-

he declared that the operations of the French continue uninterrupted in the line from Nancy along the Vosges. There, he said, the French are undertaking the offensive and are slowly but surely driving the Germans back.

PARIS, Aug. 27 [Associated Press].—It was officially announced to-day that Paris is preparing for a possible siege. Steps will be taken to determine the exact measures necessary to place the city in a state to withstand an attack and invasion.

Czar Says He Will Attack Berlin in Three Weeks

ST. PETERSBURG (via Rome), Aug. 27 (United Press),-That the plans of the Russian army contemplate an attack on Berlin within three weeks was officially admitted to-day. At the same time it was stated that not only has the Russian mobilization been completed, but that there now are 8,000,000 men under arms.

The troops have been divided into four armies of 2,000,000 men each. These armies are being placed in the field from the inland mobilization centrus to operate one behind the other, the rearward one filling the gaps each time have been beaten and routed." in the ranks of the one in front after each general engagement.
